Dean Capital Management, LLC is an independent investment management firm and manages a variety of equity and fixed income assets for institutional and individual investors. Dean Capital Management, LLC claims compliance with the Global Investment Performance Standards (GIPS®). GIPS® is a registered trademark of CFA Institute. CFA Institute does not endorse or promote this organization, nor does it warrant the accuracy or quality of the content contained herein. Past performance does not guarantee future results.

The Multi-Cap Value style uses value oriented equities across the market capitalization spectrum of small, mid, and large stocks. This style is a fully invested equity style which ranges from 90%-100% equity, and the number of holdings typically ranges between 40 and 60. The remainder of the portfolios is typically invested in short term U.S. Treasury Bills or other cash equivalents. To obtain a GIPS report and/or the firm's list of composite descriptions please contact us at 1.913.944.4452.

The Russell 3000 Index measures the performance of the 3,000 largest U.S. companies based on total market capitalization, which represents approximately 98% of the investable U.S. equity market. The Russell 3000 Value Index measures the performance of those Russell 3000 companies with lower price-to-book ratios and lower forecasted growth values. These stock indexes assume reinvestment of dividends and capital gains, and assume no management, custody, transaction or other expenses. Russell statistics used in this presentation were obtained from Russell Investments (www.russell.com). Multi-Cap Value performance represents all discretionary commission accounts.

Performance presents results with all dividends and interest income reinvested and is stated in U.S. Dollar terms. Leverage is not used in any portfolio in these composites.

*Performance subsequent to 8/31/21 represents preliminary performance results. Preliminary data is not subject to the error correction policy. Gross performance figures do not reflect payment of investment advisory fees, but do reflect deduction of brokerage commissions and trading expenses. Net of fee performance reflects the deduction of advisory fees, brokerage commissions, trading and other expenses. Net results reflect the deduction of a model fee equivalent to the highest applicable advisory fee 0.60%. The net compounded effect of the deduction of fees over time will be affected by the amount of the fee, the time period, and investment performance. Management fee schedules are available on Form ADV Part 2A.

¹Data is based on firm's Multi-Cap Value composite. Past performance does not guarantee future results and future performance may be lower or higher than the performance presented. See Performance Disclosure for additional performance information.

²Information is based on a representative account and is supplemental to the full disclosure presentation. The information of the representative portfolio shown may differ from that of the composite and of the other accounts in the composite.

³The specific securities identified and described do not represent all the securities purchased, sold, or recommended for clients in the composite. The reader should not assume that an investment in the securities identified was or will be profitable.
